MS-900 Self-Adhesive Color Banding Tape

Marking Services Canada (MSC) offers MS-900 self-adhesive color banding tape as an economical and easy way to mark piping systems. Our self-adhesive tape is made from a premium grade vinyl material suitable for line marking identification and system color coding. Colors can also define class of service or special hazard pipes.

MS-900 self-adhesive color banding tape can be installed quickly and efficiently. Simply clean and dry the pipe, remove from the coated paper backing and place in the desired location.

- Highly visible color-coded tape makes it easy to differentiate between systems
- Printed on premium-quality, fade-resistant vinyl with durable, industrial grade adhesive
- Adheres well to pipe and insulation with only limited surface preparation
- All standard tapes comply with the ASME A13.1 "Scheme for the Identification of Piping Systems" standard
- For color coding in high sunlight areas, UV-protective over-laminate can be requested to triple useful life
- Standard banding tapes are available in 1" (25mm) or 2" (50mm) wide rolls
- Also available in 3", 4" and 6" wide rolls
- Standard roll lengths are 50 yards (46 meters) long
- Custom colors also available
- Fast turnaround with off-the-shelf delivery on stock legends
- No minimum order quantity
