MS-900 Medical Gas Markers

Marking Services Canada (MSC) offers MS-900 self-adhesive medical gas markers as an economical and easy way to mark medical gas pipes. Our medical gas markers are suitable for line marking identification and system color coding.

MS-900 medical gas markers are made from durable vinyl material with pressure-sensitive adhesive, making them easy to install. Simply clean and dry the pipe, remove the marker from the coated paper backing and place in the desired location.

- Color, legend and flow direction combined on one pressure-sensitive marker for easy installation
- Designed to fit up to 1.75" diameter pipes, custom sizes available upon request
- Printed on premium-quality, fade-resistant vinyl with durable, industrial grade adhesive
- Adheres well to pipe and insulation with only limited surface preparation
- Highly visible color-coded labels clearly show both contents and flow direction
- Manufactured per CAN/CSA Z7396.1-09 "Standard Industry Color Coding Recommendations for Medical Gases"
- Marker rolls contain 100 labels (3" x 3") and wrap completely around the pipe
- Markers also available in flat sheet form (4" x 4" or 6" x 6")
- Service temperature range: -50° F to 180° F (-45° C to 82° C)
- Fast turnaround with off-the-shelf delivery on stock legends
