

# PLENUM DUCT MARKERS

## Technical Data

**INTAKE AIR**

**RETURN AIR**

**SUPPLY AIR**

### Description

Self-adhesive plenum duct markers are constructed of a layer of 2 mil aluminum foil with a pressure sensitive adhesive. Available with custom legends.

Plenum duct markers provide the durability, temperature range and fire resistance of metal used to indicate direction of flow.

This product meets the requirements of the NFPA 101 Life Safety Code for Class A materials and is approved for use in plenums.

### Physical and Chemical Characteristics

<b>Film:</b>	2 mil aluminum foil
<b>Adhesive:</b>	Permanent pressure-sensitive acrylic
<b>Application Temperature:</b>	+50°F (10°C)
<b>Service Temperature Range:</b>	-50°F to 350°F (-45°C to 177°C)
<b>Water Resistance:</b>	Excellent
<b>Chemical Resistance:</b>	Resistant to acids, alkalis and salt water spray. Fungus and corrosion resistant.

*Information on physical and chemical characteristics is based on tests we believe to be reliable. The values are intended only as a source of information and are given without guarantee and do not constitute a warranty. Purchasers should independently determine, prior to use, the suitability of this material for their specific application.*
